

CONSENT TO USE OF AI SCRIBE DURING THERAPY VISITS

Performance Rehab is committed to providing the best possible care for you, and as part of this commitment we are continually looking for ways to enhance our services.

We are using a new software program for our therapy evaluations and visit notes, scheduling your appointments and billing insurance. This new program uses AI scribe, an artificial intelligence tool that listens and assists us during your visits by generating clinical notes based on our conversations. This tool allows us to focus more on the visit and less on taking notes.

The AI scribe adheres to HIPAA compliance guidelines to ensure your data is secured and protected. Only the healthcare professionals involved in your care will have access to these notes.

Your participation is voluntary. If you agree to the use of AI scribe during your visits, please sign and date the form below. If you have any questions or concerns, please feel free to ask. Thank you for your understanding and cooperation.

I consent to the use of AI Scribe during my therapy visits.
